Why Futsal?

Futsal is the only indoor soccer game sanctioned by FIFA. If skills development is important, Futsal is recognized as clearly the best form of indoor soccer. But that's not the only reason. In traditional American walled soccer, players regularly *whack the ball (and sometimes their bodies)* against the boards which promotes improper technique and too often rewards errant play. In Futsal, players are constantly reminded to play the same quality control game that is required for success in the outdoor game.

- **Better Skills Development - Futsal promotes quality touches**
- **Safer - Futsal eliminates the injuries associated with wall collisions**
- **Less Expensive - Futsal makes quality soccer more affordable**
